

I would like to register my disapproval of Proceeding 02-277. I feel that this proceeding will enable media conglomerates to control an inordinately large share of the market of my home community. It seems likely that the concentration of corporate control of local media in the hands of fewer people will result in fewer political viewpoints being broadcast in my community. As a citizen searching for ways to better my country, this deeply concerns me. Please do not pursue this proceeding.

Regards,

B. Beverly
